ONETEAM SOLUTIONS.KOCHI

PROJECTS

SHOPEE

- A web-based platform for seamless online shopping, built with a React frontend and Django backend. It uses RESTful APIs for data management and integrates HTML, CSS, JavaScript, Django, MySQL, and ReactJS.

LIBRAQUEST

- In This Project, A Library Management System (LMS) is a software application designed to manage and streamline the administrative and operational functions of a library.

SIGNSTREAM

- These tools bridge communication gaps by using computer vision, machine learning, and natural language processing to convert sign language gestures into spoken or written language and vice versa.
